

INTERNATIONAL CONFERENCE ON
GEOLOGY, ECOLOGY, AND LANDSCAPES
- UNIVERSITY MALAYSIA SABAH -
11-13 NOVEMBER 2022

Welcome

Inaugurated in 2015, ICOGEL is the largest and best attended conference of its kind in the region. An exceptional technical conference with presentations by key academia and industry figures combine to offer exceptional networking, business and educational opportunities to all professionals with an interest for future development in geosciences. This combination of local and international expertise ensures that the programme is highly technical with leading edge science brought together from around the world mixed with local knowledge from the region's leading geoscientists.

The ICOGEL conference is organized and developed by the International water, Air & Soil Conservation Society (INWASCON), Malaysia

ICOGEL extensively covers all aspects on scientific and technical advances in the field of geosciences and geomatics ranging from the integration of instruments, methodologies and technologies to their use in earth sciences, environmental engineering and other natural sciences. The main objective of the conference is to bring together leading Academicians, Scientists, researchers, graduate students from the field of Geosciences, Geological Sciences, Meteorology, Atmospheric Sciences, Global warming, Environmental Sciences, GIS & Remote Sensing and others whose interest is to promote Earth Science education at the school, college and university levels, and among the general public.
